

April 1 1939

Dear Posey:

I have been telling you for a long time I thought you were crazy, now I know it. I am returning to you the letter you sent me. You evidently sent me one page of my letter and McCrarys letter. I guess you sent Mc Crary the other page of my letter. You better watch your self or you will end up like Rube Foster in the bug house;

Now McCrarys story about his account not being correst I am not interested in. That was the Secretarys job. I am only concerned with the figures you sent this office, of what was due him. If you made a mistake arriving at that figure, you will have to straighten it out. McCrary always did kick about what was due him, so I guess it is to be expected.

Now about your money due for contracts, all the money belonging to the league is in the same envelope it was put in the day Abe. received it, just waiting to be put in the bank. You are holding it up by not sending me the statement I asked you for. What is the reason you wont send it? I have written you three times for it. I could put the money in my own account but I wouldnt dare. It should be in an account of the Negro National League, and in order to get the bank to open that account I must have an copy of the minuets where Abe, was made treasurer. Please send this right away, as I had a letter from the outdoor sign man asking for his money. I cannot understand why you dont send it.

Hope you are well. My regards to the family.

Very Truly Yours
